Affirmative Action

The Affirmative Action seminar dispels the many myths surrounding this controversial topic. Participants learn how to conduct statistical analyses that not only meet State/Federal compliance standards, but also comply with recent Supreme Court decisions on Affirmative Action Plans.

This is a practical approach that will bring clarity to a confusing area and will assist managers in meeting their employment goals and objectives.

Equal Employment

This training provides participants with critical skills needed for successful supervision and presents an overview of the various employment laws, as it relates to the protected classes of race, color, religion, national origin, sex, age and disability.

Participants are given a concise, easy-to-understand explanation of the proofs and defenses in a charge of discrimination and are trained to understand the process of an investigation and how that impacts the workplace. This three (3) hour training provides tips to prevent discrimination and emphasizes an appreciation for diversity and respect.

Case scenarios are presented and discussed, providing participants with a more practical approach to solving problems they may face in the future.
